TERMS-\$1,75 per annum in advance.

Thursday Evening, Feb. 10, 1853

THE LEGISLATURE. - We did not notice in to-day's Eagle any attempt to inform its readers why the Legislature do so little work or any probable guess at an adjournment. We are sorry that our contemporary has dropped the subject as we were among the anxious inquirers and would have been thankful for any reliable information. We hope he will renew his efforts to satisfy his readers .-What does he think of this solution!-"Without the capacity to legislate or the honesty to acknowledge it, they will hold on to the four dollars per day, so long as they to Albany, was 35 cents from 1835 to 1845; resignation. find any respectable number of their party 31 cents from 1846 to 1850 inclusive, and 23 It is said that the civil marriage has alfind any respectable number of their party papers ready to blame the delay upon the As the productive flour of the "west" is ceremonies will be held on the 29th January, of the arrangement. of it.

Morning Advertiser remarks: "We learn that distinguished French General stated,
In the most positive terms, in the course of in the most positive terms, in the course of in the most positive terms, in the course of blood that distinguished French General stated, Allas. on the most positive terms, in the cannot only pledge present winters in Europe and America show shed by her father for the cause of the Emconversation, that he cannot only pledge present winters in Europe and America show conversation, that he cannot only proget the conversation on the conversation of the conversation on the conversation on the conversation of tention to this country, but that we may ex- the one continent have a great similitude having no relatives in France to whom it pect the Napoleonist purpose will be attempted to be carried out in less than three ter of last year manifested itself simultanmonths. The blooming Bidean Canals would be conceded as a part to correct the evil, to apply the remedy.— and more than this, she would not retain ed, but so acute and ingenious were the to correct the evil, to apply the remedy.— and more than this, she would not retain ed, but so acute and ingenious were the The majority of our farmers are pursuing her membership with the denomination that reasonings on both sides, that there was a preaches but declines to practice, and sent the vote. They will next discuss the followher resignation in due form of law.

Whereupon down from McGrawville comes the blushing Allen, decked in wedding garb, and on Sunday morning, he half woke from ponderous sleep, and thought he heard playing on the air such sweet music

"As are those dulcet numbs in brosk of day.
That crosp into the dreaming bridgeroom's car,
And summon him to marriag."

brated under the Reverend father's roof, which is not worthy of history-of which they withdrew to Phillip's tavern on the something good cannot be said. "To show to what extent the fertility of West side of the river, and made prepara-Proposals for carrying the above from Ju- the soil can be increased, I refer to a state- tions for the ceremonies. In the mean time night be necessary to give honors and digington, until 9 A. M. of the 4th of April and litaries.

The premium corn crop of Kentucky, strong, made ready to "disturb the meeting."
Several prominent citizens, feering lest a seand heaviness under which clergy men and each of whom cultivated 10 scres. Their
average crop was about 122 bushels per acre. At this time the average crop of wheat per ringe house, and while some kept the riot pressure on the neck is sufficient to prevent acre in the harvest of Great Britain, on a down by speeches and persuasion, others the ready flow of the blood. What then PLANK ROADS.—The recent bad roads, soil cultivated for centuries, is about double gained admittance to the colors. Allen on heaven the same prayer as myself for the to begin to talk about plank roads. We is this! Simply because British farmers are, but that he would be in a few minutes. He

Syracuse Star. SPEED OF THE HORSE. -- The maximum speed of the race-horse appears to be at the speed of the race-horse appears to be at the rate of a mile a minute; for few, if any horses, can retain the full velocity of this rate for even that time. A mile has however, been run at New-market in one min-sever, been run at New-market in one min-sever. brought up and kindly cared for by her father; horses, can retain the full velocity of this ever, been run at New-market in one minsafe keeping, and for the inspection of purchasers. Amongst those who thought of buying the article, was one gentlemen who wished to learn if her bust was indebted to padding for its form; but the girl, resenting that this celebrated horse, when carrying and a half seconds. (No such thing!) It is said, but never was proved, that Flying Childers did run at New-market, one mile in the minute; certain it is that this celebrated horse, when carrying and an orchard of the choicest relections of grafted ute and four and a half seconds. (No such nine stones, two pounds, ran over the round-course, which is three miles six furrepresentative of Southern chivalry drew a longs and ninety-three yards, in six minutes has fully explained to Gen. Pierce, that the heavy whip and dealt her a blow which she and forty seconds. Buy Malton ran four miles at York, in 1763, in seven minutes, which rendered them quite powerless. That forty-three seconds and a half. Eclipse also ran the same distance, on the same course, in eight minutes, with twelve stones. The most extraordinary instance on record of the stoutness, as well as speed, of the racehorse, was displayed in 1786, when Mr. Hull's Quibbler ran twenty-three miles round the flat at New-market, in fifty-seven from the effects of the blow, by her chivalric minutes and ten seconds. The speed of the grey hound and that of the hare is but little inferior to that of the rac-horse, but their powers of endurance at their utmost velocity are not equal to his.

The racing-gallop is evidently but a suchind-legs start in pairs, each pair acting simultaneously. The hand-gallop is not so rapid a movement, as the right legs are a little in advance of their fellows. It is well ascertained that a horse can never pass at ascertained that a horse can never pass at wardly to where it interacts the Zanser once from a state of rest into the gallop of vite Road. Feb. 2, 18 full speed, but must begin with the handgallop; and cunning jockeys sometimes derive profit from wagering with the unwary, that no horse shall be found to gallop one hundred yards while a man runs fifty, the mail comes from your village to Tompkins two starting together. In this the man is every day by the stage, which runs from your mentum as he would do if the race were for

The subscriber has just received a very fine associating of express riding performed in modern times, was that of a boy of fitteen, Fred.

Tyler, who conveyed, from Montgomery to Mobile, the news of the two day's battle, fought between the remains of the United States. between the armies of the United States direction. By directing your letters to this and Mexico, in the Summer of 1848. The accomplished in thirteen hours, and dusooner than if directed to Freetown; which saddled his horses, none of which were in delay might, in some cases, be of considera- readiness, as he was not lacked for by those who had the horses in charge. A bet against time was won in July, 1840,

try, to give you this information, that you miles in four consecutive days. Mr. Frazer relates in his "Tartar Journeys," a still more striking instance of the speed and bottom of the Arab; a horse of that breed car-P. S .- As to that note; you say it has ried him from Shiraz to Teheran, five hundred and twenty-two miles, in six days, remained three at rest, went back in five days, remained nine at Shiraz, and returned again HARD TO DIGEST .- The Concord Demo- to Teheran in seven days. Another high crat, under the very appropriate head of blooded Arabian carried Mr. Frazer from accidentally swallowed a very sharp butcher bout ten hours. A courier, whom Major knife, nearly a foot long, and with a blade of Keppel fell in with between Kermanshaw the width of an inch and a quarter. In a and Hamdan, places one hundred and twenfew days the point of the knife was found ty miles distant from each other, performed projecting back of one of the animal's shoul- that journey over a rugged mountainous ders, and was drawn out through the cow's track, in little more than twenty-four hours; ribs uninjured, the handle being vomited up and the next morning sat off on the same a day or two afterwards. It would be hard horse for Teheran, two hundred miles furto say which had the most capacious swal- ther, expecting to reach it on the second

The best proof we have seen of the Port Montes, Pocket Wallets,

that that village was a theatre of quite an ingly charged by a Boston shop-keeper, while exciting time, to say the least, on Sunday in his store, with having stolen goods from evening last. The story is as follows: Rev. h m, and he proceeded to rudely search her of reciprocal trade with Canada, the Secretary of State says it has been perceived with
satisfaction, that the Government of England is prepared to enter into an agreement
for the admission of fishing vessels of the
Theirof States to a full participation in the tain genuine negro, connected with the in- The folding doors were then thrown open, stitution called Professor Allen, and herself, and the husband of the insulted lady led him and agreements to constitute what is known ter introducing him as "the gentleman who gagement to be married. A little time since, the street door, upon which one of the young damsel went home to ler amalgama- ladies present went to the plane and comtion preaching parents, and made known menced the "Rogue's March." The shop-the strangements whereby their lovely keeper took the hint, and his coat tails dis-daughter expected soon to be folded in the appeared horizontally through the open door-way.
